

Workforce Management Time & Attendance

**Reduce Labor Costs and Maximize Employee Productivity.
Intelligently Manage Your Workforce with Reporting.**

Managing your company's labor is complicated.

Demand is constantly changing, and when labor is over scheduled, costs soar. When the team is short staffed, customer service suffers because demand can't be covered to meet the brand promise.

Controlling labor costs both optimizes performance and improves levels of service creating your competitive advantage.

UniFocus' multi-lingual systems balance staffing needs while maximizing productivity, service, and quality to increase your customers' intent to return and recommend.

Time & Attendance Key Benefits:

- Simplify On Demand scheduling – real time, in the cloud, fully hosted.
- Control and reduce operating costs with proactive overtime management
- Ensure payroll accuracy and prevent penalties with customizable reports
- Optimize productivity with real-time visibility and mobile application
- Improve employee engagement with an online communication portal and mobile application
- Satisfy client demand and improve service quality with accurate scheduling
- Enhance end user experience with multi-lingual global solution

Our biometric, touch screen Smart Time Clock will help your staff stay right on time. The up-to-date software technology operates with all work rules.

Also available in Spanish, French, and Japanese

Time & Attendance now goes where you go at any-time, anywhere with the ability to handle scheduling concerns from any location. It's difficult to cater to your client's needs while chained to a desk, and we understand that. T&A Mobile Apps allow managers to work from the floor of your establishment so they can build relationships with guests, and efficiently handle employee attendance from the palm of their hand. They allow your employees to easily review their schedule, swap shifts, and request time off.

UniFocus' T&A is the simple secret to reducing labor costs.

Apps are available for iOS, Android and Windows Mobile operating systems.

**UniFocus, with its decades of experience, is the only industry leader which offers Workforce Management Systems, Financial Management Tools, and a complete suite of Survey Solutions to quantify perceptions.
Bottom line: improve performance, profit, productivity, efficiency, satisfaction and asset value**
